

Cassandra Vandoros

MEET THE TEAM

Graduated from Johnson and Wales with her bachelor's degree in Food Service Management. After completing her internship in the culinary department at the Metropolitan Museum of Art in New York City, she decided to peruse her career closer to home at country clubs and banquet halls. Her passion originated with her mother, raising her 4 kids and always having fresh dinner on the table. She developed a love for cooking with her mother on the weekends making fresh baked goods for family and friends.

Favorite food memory?

TODAY, I RECOMMEND

The entrée special. We work hard every day to offer fresh home-made delicious meals!

My favorite food memory is making Christmas cookies for the holidays, eating all the delicious raw dough and getting to decorate snowmen, reindeer & stocking cookies with colored icing!

What does hospitality mean to you?

To make everyone and anyone feel at home. I want all guests to feel welcome and wanting to come back for more. Teamwork will also help you strive in the hospitality world. Nothing is possible without each other. Attitude is contagious, a positive attitude will put a smile on everyone's face. Being kind has the power to turn anyone's day around!
